

Welcome to **ROMEXPO**, the City of the city!

We inform you that the access to the **ROMEXPO** Exhibition Center is **FREE!**

We have taken all the necessary measures to ensure that the visit to the **ROMEXPO** Exhibition Center takes place in safe health conditions! We hope you have a pleasant experience!

Everything is very simple and easy to follow:

cover your nose and mouth with a mask (the measure is just a recommendation throughout the visit, inside the pavilions)

keep a distance of 1.5 m from visitors and the exhibitors you interact with.

avoid physical contact with interlocutors - hugging and shaking hands can seriously damage your health

sneeze and cough only in the bend of the elbow or on the upper arm

disinfect your hands as often as possible (disinfectant devices are installed on the exhibition route)

Thank you!
